

## ARCTIC VOLCANO ICE MELTER

INS-FG-VOLCAN-20 (20KG)

### EFFECTIVE DOWN TO -29°C

The Ultimate Solution for Extreme Cold!

The Arctic Volcano effectively and effortlessly melts snow and ice, even under the most extreme cold conditions. Its rapid and efficient melting capabilities ensure a consistently clear path, even in freezing temperatures. The distinct blue crystals enhance visibility, facilitating uniform coverage with each application. This product is not only user-friendly but also safe for pets, environmentally friendly, and gentle on various surfaces, including concrete.

### ADVANTAGES

- Safe and easy to use;
- Environmentally friendly;
- Safe for pets;
- Effective, rapid melting power;
- Custom blended for maximum salt power;
- Its blue crystals are easy to see and help ensure even application every time;
- Absorbs sunlight thanks to its dark color;
- The ideal solution when immediate surroundings are sensitive to corrosion problems.

### APPLICATION

Following a storm, spread ARCTIC VOLCANO over the affected area. Use approximately 0.14 to 0.28 kg/m<sup>2</sup> and spread the ice melter evenly. Allow a few minutes for the salt crystals to melt accumulated snow and ice. Remove slush with a shovel or scraper. Do not pile on vegetation. Reapply as needed.

Environmentally  
friendly

Safe for pets

Rapid melting  
power

### CAUTION :

#### CONCRETE AND OTHER SURFACES:

ARCTIC VOLCANO is not recommended for removing ice on concrete surfaces less than one year old, precast concrete steps, existing concrete masonry surfaces (stone, bricks and mortar joints) with apparent aggregates, or concrete that is precast, pre-stressed, spalled, cracked, crumbling or weathered. Apply only on sound concrete; application of the product to already damaged concrete may accelerate its deterioration due to freeze/thaw cycles. ARCTIC VOLCANO is not recommended for de-icing wood or metal surfaces. Avoid all contact with leather items.
