Product Description

The Cascades PRO Tandem™ Top Bottom High Capacity Toilet Paper Dispenser meets all the challenges of the modern facility and is designed to improve hygiene, while lowering operational costs. Featuring a seamless, modern design and a no-touch dispensing mechanism, it's perfect for use in busy restrooms across the education, retail, industrial, foodservice, and commercial building markets. It's 99.9% jam-free and offers fast and reliable dispensing to ensure the ultimate guest experience. Featuring a quick check design, the Cascades PRO Tandem Top Bottom High Capacity Toilet Paper Dispenser allows customers and custodial staff to quickly recognize when it's time to refill, without having to open the unit. It also comes with a color coded refill system for quick reloading, resulting in increased productivity and less maintenance time. Equally convenient is the dispenser's flip mechanism, a design feature that lets custodial workers quickly and easily move the backup roll into dispensing position and load a second roll at the top. Delivering up to 220 sheets of 2 ply toilet paper, the Cascades PRO Perform™ and Cascades PRO Signature™ high capacity bathroom tissue used with this no-touch dispenser help to reduce over-spin. By limiting the amount of paper released with each pull, the Cascades PRO Tandem Top Bottom High Capacity Toilet Paper Dispenser minimizes waste, paper consumption, and risk of toilet-clogging. Additionally, a fast and simple dual lock can be changed from an easy-match key-lock to a push button option using the slide button. The Cascades PRO Tandem Top Bottom High Capacity Toilet Paper Dispenser conforms to ADA guidelines when properly installed.
